Dr. Ashwini Kulkarni replied that it is necessary to shuffle to keep proper balance in the class and divide the new admission students equally in all four classes. She further added that it would be done when students go from class V to VI.

Point No 5] Advisory Body

She also informed the parents about the advisory body which is already there in CPS Nigdi. She explained that E-PTA does not represent parent from every division. In City Pride School we have a concept called advisory body which has two Parent representatives from each division. The advisory creates a real understanding of parents' concerns across all classes and the reply is given within 24 hrs. City Pride School believes in strong communication with the parents and the school and the parents are together for the child. It will start from next year in Ravet branch as well. She further told that though the tenure of current EPTA members is over they can also get elected as advisory member. The elections for the same would be in the month of June.

The EPTA members appreciated the teachers and mentioned that the year was very nice and children would miss the teachers of the previous class.
